

Result of nine questionnaires received at the last AGM in October 2019 5 -
3 sprouting variety

Success ratings of vegetables 1=poor 5=best **Brussels sprouts**

Not everyone grew everything so we just have a note of who grew what. This repays reading as there are a lot of good tips hidden away. 3 -
Cabbage

Asparagus 4 -
5 -
3 still becoming established 2 lost a lot due to slugs eating
3 4 great taste, grew well, normal slug damage
Beetroot 4 primo

3 bolthardy
4 bolthardy
'good' -
3 bolthardy
2 my fault - didn't thin them out
5 -
3 crimson globe
3 bolthardy and yellow one 2 lots of slugs/woodlouse damage
Cauliflower 4 -
2 -
celeriac 2 lots of slugs/woodlouse damage

Borlotti 4 late start but good crop 5
5

Beans, broad 3
1 lost quite a few due to early frosts
4 aquaduce 3
good 'over winter' 3
1 Suttons Longford - black fly 3
5 - 3 First time in polytunnel. They got too wet. Outdoors next year.
3 aquaduce 4 'yellow variety'
2 -

Beans, French 4 curly kale
3 -
difficult poor
3 -

Beans, runner 3 garlic
'good' well wintered with onions
3 not as good as last year

5 white lady
5 -
difficulties poor
4 polestar
3 not as good as last year due to weather in May/June 2/3 Musselburgh. Germination not as good as in previous years.
4 King George 4
4 polestar. V. good after slow start. 3
4 - 3 still getting bigger! (oct 19)
4 - wanted to do these - left it too late.

Broccoli 4
4 good - in manure
1 slugs and butterflies

|-----------------------|--|-----|--|
| lettuce | | 4 | |
| | | 3 | |
| 3 | | | |
| 5 | Cutscome Ayan | | Spinach |
| 1 | virtually impossible to germinate and grow in the ground | 4 | |
| 5 | wonderful curly leaved variety, loads for us to eat and give away | 2 | pigeons ate lots |
| 2 | | | Tomatoes |
| onions | | 3 | |
| | | 5 | Sweet Million. Very sweet. Lovely. Still fruit now (Oct 19) |
| 4 | good between rows | | |
| 5 | | 5 | 'various' |
| 5 | Stuttgart | 2 | Gardeners Delight. Did not open this year. |
| 5 | 'White'. Best crop ever. Big. Dried well. Taste amazing | | |
| 5 | | | Blackberry |
| 3 | better than last year | 3 | |
| 5 | | 5 | excellent |
| 4 | sturon | | |
| onion (spring) | | | Blueberries |
| | | 5 | |
| 2 | white Lisbon | | |
| 3 | | | |
| 3 | | | Raspberry |
| Parsnips | | 4 | |
| | | 4 | |
| 0 | did not germinate | 4 | |
| 2 | very low germination rate | 5 | Autumn. Very large fruits, gave loads away. Rain disrupted packing. |
| 4 | last years seeds. These have been in over the winter. Good size, lovely taste. | | |
| | | 5 | Excellent. Mulch over winter with wood chippings |
| 4 | use of dibble. Compost in hole -seeds on top. | | |
| Potato | | | Rhubarb |
| | | 5 | too many to eat. Gave some away. |
| 0 | use new seed each year. Water them until germination | 3 | |
| 5 | Red and King Edwards. Good crop of both. Edwards massive. No damage. | 4 | good crop |
| | | 4 | |
| 2 | Aaron Pilot worms | 5 | always grows well |
| 3 | | 3 | |
| 4 | Charlotte. Have tried others but charlotte seems to do best. | 4 | |
| 5 | Arran Pilot – not attacked | | Strawberry |
| Radish | | 5 | good crop |
| | | 2/3 | |
| | | 3 | am replacing plants this year with cheddar varieties |
| 2 | pigeon damage | | |
| 5 | French breakfast. I must stagger planting more. | 2 | |
| Shallots | | | <i>We will have another go next season. A most useful exercise. Thank you all.</i> |
| | | | <i>Brian 30 January 2020</i> |
| 4 | manure between rows | | |
