## Welcome to Midsomer Norton Allotments

The allotment site currently hosts 65 plots for enthusiastic gardeners keen to enjoy growing a wide variety of fruits, flowers & vegetables.

In this day and age we cannot be certain of the quality of the foods we buy in the supermarket so this is an excellent opportunity to grow your own be assured that there are no unnecessary fertilisers or chemicals involved.

We are a friendly bunch of people and if you need help or support with anything we will be more than happy to assist.

Don't worry if you're not an experienced gardener, everyone has to start somewhere so by asking around other allotmenters you will get the help that you need

Please read the website in full or use the contact page for a chat.
