Bonfire and party - Due to extensive rain on Friday, Saturday and indeed Sunday looks unsuitable. We will make another attempt next Saturday 29th October.

For latest details and ways you can help see <https://www.msnallotments.net/social-events-programme/>

Let's help each other with information about what grew well (or not so well)

I would like us all to share our best information about how our various vegetables have fared, and also if you can the varieties. This information will be pooled. It will be particularly useful to newcomers.

It does not have to be long or fancy.

Examples

Potatoes, Marais Piper, did about the same as last year

Cos Lettuces, eaten by animals? will put nets round next time

Please spend a few moments writing about your experiences. Last time, 29 people responded so lets try and beat this.

Send it to info@msnallotments.net

Volunteers needed for various positions

. You can see the constitution [here](#).

There will be vacancies for

- Chairperson
- Treasurer
- Secretary
- Site Officer

plus other co-opted people in an advisory capacity.

It is planned to have four committee meetings per year of which one will be the AGM.

It would also be good to have a social events secretary or events organiser and someone to take on the web site (full instructions given)

If you would like to play a part in this but are not sure what you would like to do then let me know and we can (all) meet and discuss it. The work is simple, common sense and interesting.
